Cover

- Gas heat-emitting burner in stainless steel alloy for long-lasting quality, suing the Enders ENDUR reflector system
- The reflector insulates the device an also works to redirect radiated heat back inwards
- 3 – 6-kW continuously adjustable heating level controls
- 25 – 50 hours of operation using a single 11-kg cylinder
- Stable, slimline body in brushed stainless steel
- Thermoelectric flame failure safety device and anti-tipping system for maximum safety
- Operating controls well protected inside the protective body
- Integrated height-adjustable reflector for accurate alignment and individually adjustable heat shields on the rear side
- The 11-kg gas cylinder can be stowed safely and space-efficiently
- Stand made of treated steel with additional transport grip makes it easy to handle and move from place to place
- The tough draw-bail latch ensures easy opening and closing
- Tough, firmly fixed outdoor wheels for easy movement from place to place
