

Food Tools for Life

Boards - EN

Description

A board is used to stylishly present and share a selection of snacks and dips. You can also use the board to serve items like pizza or for dining. What snacks or meals you place on the board is entirely up to the user. The possibilities are endless.

Here's how to use it:

1. **Choose the snacks:** Select a variety of snacks you want to serve and arrange them on the board.
2. **Add serving tools:** Optionally, place serving tools such as toothpicks, spoons, or knives on the board.

Note!: If you add knives to the board, make sure they are securely placed to avoid them falling off.
